

WeekReport_2019-06-10_06-16_E

Week Overview

- I feel much better now But I am not completely good yet.
- $8 + 8 + 9 + 9 + 8 + 6 + 5 = 53$ hours

Graphlayout

- Yeshaojie test the whole datasets this week
- there is some problem in KK and FR algorithm in ogdf. I will check next week

RSA_Tree

- I built the code for the backend. Then I did some different experiments again.
- I and Mei have built the entire project on the server, and the effect is acceptable.
- Next week, I will do some other work according to the review.

Other

- write ppt of our English course
- write ppt of our Zibian course
- Write the js code of scivis

Short-term perspective
